# INDIA NOTE.

The following copy of a Special India Army Order, dated the 26th July 1918, containing instructions as to the pay and the payment of family allowances and pensions of persons subject to the Indian Army Act and reported missing is published for general information:—

PROVISE, INDIA ARMY ORDER BY THE COMMANDER THE COMMANDER-IN-CHIEF OF INDIA,  
MAJOR ARTHUR HAMPREY, C.B., 26th July 1918.

*Persons subject to the Indian Army Act who are reported missing. Instructions as to pay and payment of family allowances and pensions.*

With reference to Special India Army Order, dated 26th December 1914, it has come to be known under Army Department letter No. H-499, notice that the originaries of the service have caused considerable delay in the assembly of the courts of enquiry on persons reported missing, referred to in section 116, Field Service Regulations, Part II. It has, therefore, been decided that the following regulations shall govern the issue of pay and payment of family allowances and pensions of persons subject to the Indian Army Act who may be reported missing.

It should be understood that the person's estate will not be legally wound up until he has been declared officially to be dead or until one year has elapsed from the date on which information was received at the depot that the man was missing.

1. The pay of a person subject to the Indian Army Act who is reported missing while on field service with any of the Expeditionary Forces during the present war, should be credited to his pay account for a period of two months only from the date on which information is received at the depot or depot in India that the man is missing. In the case of a man who was serving a family allowance, the man's family will, however, continue to be paid, up to a period not exceeding seven months (but see last clause of paragraph 5), the rate of family allowance which the man was receiving at the time when he was reported missing. These payments will be made even though pay has ceased to be credited to the man's account, the amount being drawn monthly and sent to the Officer Commanding the depot or unit in India.

2. If the news of the man's death is received before the expiry of three months, his pay should be credited up to the date of his death.

3. If there is definite evidence that a missing man was alive on a date subsequent to the expiry of the two months, his pay should be credited up to and including that date.

4. If a man reported missing throughly regular, or is found to be a prisoner of war or interned in a neutral country and by his own faith, the amount of pay will be credited to his account.

5. Death will be presumed after a period of six months from the date on which information was received by the unit or at the depot in India that the man was missing, and steps will be taken for the payment of family pension. This pension will in all cases be granted at the highest (billed on actual rate unless any evidence is forthcoming to the contrary. Unless family pension has been previously allowed, the allowance will be continued up to a period of seven months.

6. As the family allowance may be more or less than the family pension admissible, the latter should be granted from the original date of the anomaly, any allowance paid in excess being waived, and any deficiency between the allowance and the family pension being paid to the heir.

7. This order will apply retrospectively to the estate of soldiers already reported missing during the present war.

F. F. ARTHUR, Major-General,  
Adjutant-General in India.

A. BUTTERWORTH,  
Chief Secretary.

## GOVERNMENT OF INDIA TERMINABLE LOAN.

### Notice as to the Conditions on which the Public May Subscribe through the Post Office.

The Government are raising this year's loan in a new form carrying a per cent. interest. It will be repaid in full not later than November 1920, but Government may repay it if they wish any time after October 1920.

2. Rupees 4½ crores have already been raised in the usual way by the receipt of applications at Calcutta, Madras, Bombay and other large centres, and, so far, the loan is now closed. But in addition a special opportunity is being given to persons who wish to take up the loan in small amounts, whether they are savings bank depositors or not, of subscribing through the nearest post office which transacts savings bank business.

#### HOW TO SUBSCRIBE.

3. Applications through the post office can be made any time up to the 31st October.

1-10-15.]

4. Applications must be for even hundreds of rupees and for not less than Rs. 100 and not more, in the case of any one applicant, than Rs. 5,000.

NOTE.—An applicant may apply for the new loan up to Rs. 5,000, notwithstanding that he already holds \$5 per cent. Promissory notes previously purchased through the post office.

5. A person desiring to apply must fill up the form below, which can also be obtained at any post office which transacts savings bank business. He must at the same time pay the full amount for which he applies. For this purpose he can use the money in his savings bank account if he is a savings bank depositor, or he can pay in cash direct. The applicant may go to the post office himself or send a messenger. All amounts paid will be acknowledged.

6. For every Rs. 100 which the applicant pays he will receive Government Promissory notes for the same amount.

### CUSTODY OF PROMISSORY NOTES.

7. The notes may either be kept by the applicant in his own custody or, if he prefers, they may be retained in the custody of the post office authorities on his behalf. He should state which method he prefers in filling up the form of application. If he wishes to keep the notes himself, the post office will advise him when they are ready for delivery, and, on his presenting himself personally, they will be made over to him. If he decides to leave them with the post office, his personal attendance will not again be required, but the post office will send him an intimation in due course that they have been received and will be made over to him. Should he at a later date desire to keep the notes himself, he may apply to the post office. If he does so, they will then be made over to him.

### PAYMENT OF INTEREST.

8. Interest at 4 per cent. a year will be paid half-yearly, i.e., 2 per cent. on the 31st May and 2 per cent. on the 30th November every year. For the broken period from the date of subscription to the 30th November next, interest will be paid in cash at the time the Promissory notes are delivered if the applicant keeps them himself, or will be credited into the savings bank account mentioned in the next paragraph if he leaves the notes in the custody of the post office authorities.

9. If the applicant decides to leave his Promissory notes in the custody of the post office authorities, the latter will draw the interest for him regularly each half-year and credit the amount into a savings bank account which will be opened for this purpose in his name. The post office will also inform him from time to time whenever interest is thus received. No charge will be levied for this service, and no income-tax will be deducted in making the half-yearly payments of interest.

If he keeps the Promissory notes himself, income-tax will be deducted from interest in the usual way at the time the half-yearly payments are made.

### SALE OF PROMISSORY NOTES.

10. If at any time a savings bank depositor who holds Promissory notes in this new loan, which have been purchased through the post office by the procedure here described, desires to sell them again, or any part of them, the post office will arrange this for him without charging brokerage or other fees. Full particulars as to this can be obtained from the post office at any time.

## NOTICE TO CANDIDATES FOR THE PRINCIPAL TEST.

The following instructions are published in order that candidates may know what is expected of them in that test—

## Instructions to candidates

The object of a *proof* is that anyone who has not time to read the original correspondence may, by reading the *proofs*, be put in possession of all the leading features of what passed.

2. The candidate should begin, by stating the views of the correspondence shortly through without writing anything, so that he may clearly understand what passed and be in a position to discuss what was the main body of the correspondence should be arranged. He should then read through the paper again making what is important.

3. The *proofs* should begin with a brief and brief introduction to the subject under treatment. This should be followed by a narrative in the past tense containing a brief and clear statement of the contents of the correspondence, not in the order of the papers but more systematically in chronological order, but in a logical order. An abstract of every paper in the correspondence, or a table of its contents, is not a *proof*.

4. The merits of a *proof* are—

- (1) to present all that is important in the correspondence and nothing that is unimportant;
- (2) to present this in a readable and consecutive shape, expressed in intelligible and clearly as possible;
- (3) to be as brief as is compatible with exactitude and accuracy;
- (4) to present a strictly accurate and logically connected statement of the contents of the correspondence.

No candidate can expect to pass who makes any one of the more important points, marks will be deducted if some points are included, or if some are repeated unnecessarily, i.e., it is not necessary to give the date of every paper in the correspondence and the full name and designation of the writer or recipients of every letter; and a fact is repeated in different papers it need not properly be stated more than once in the *proof*.

5. Grammar, spelling, style and handwriting will be considered in assigning marks; but if good be remembered that mere excellence in composition will not compensate for "unnecessary or incomplete" in the presentation of the facts of the correspondence.

## AUDIT REPORT ON THE ACCOUNTS OF THE NALLAMTHIRU CO-OPERATIVE CREDIT SOCIETY No. 1185 FOR THE YEAR 1903-1904.

The year under report is the second year of its existence.

At the beginning of the year, there were 53 members with 310 shares. Five members with 24 shares were newly admitted during the year. An one member with 10 shares died during the year, the number of members at the end of the year was 57 with 324 shares. The value of each share is Rs. 2 only.

The Society borrowed no loan from Government, Coated Societies or from other Co-operative Societies. It met all its demands from deposits kindly collected. Of the sum of Rs. 523 held at the beginning of the year as fixed deposits, Rs. 500 was returned during the year. Thus at the end of the year there was only Rs. 23 outstanding against the society. Interest deposits and Fixed deposits of members were from Rs. 2 and from Rs. 42 to Rs. 10-0-0 and Rs. 74 respectively.

The rate of interest on the above deposits was 4½ per cent per annum. At this rate Rs. 10-0-0 was paid and Rs. 31-1-2 was pending payment.

Rs. 3 was collected as entrance fee at the rate of Rs. 1 per share and Rs. 2-0-11 as premium for insured payment of outstanding and unreturned deposits.

Thirty-two loans amounting to Rs. 638-6-0 were outstanding against members at the beginning of the year. During the year 25 loans amounting to Rs. 696-6-0 were disbursed and 27 loans amounting to Rs. 418 were completely repaid. Post payments for other loans were also indicated to the extent of Rs. 275-0-1. Thus there were 40 loans amounting to Rs. 590-12-0 outstanding against members at the end of the year. Of these three loans amounting to Rs. 40 fell due at the end of the year and were pending recovery at the time of my audit.

All the loans were granted in sums below Rs. 50 and the security was the surety of two members other than the borrower or each party.

Of the sum of Rs. 120-0-0 collected as interest from members during the year, Rs. 43-4-0 should be kept apart as reserve money under by-law 31 (b) and the balance Rs. 76-11-6 should be credited to the Profit and Loss account. With the sum of Rs. 14-4-4 left over from the previous year the reserve money in the society amounts to Rs. 88-15-10. Interest earned during the year and pending collection was Rs. 25-0-6, of which Rs. 12-0-0 was payable from members at the end of the year.

Outgoing charges of the year amount to Rs. 2-2-0 being the cost of account books and bond forms. The expenditure was reasonable.

As per last audit order, a sum of Rs. 8-12-0 is invested in the Madras Coated Urban Bank as Deposits Fund. Under by-law 25, the entire net profit Rs. 32-14-6, should be credited to reserve fund. With this sum, the total reserve of the society will amount to Rs. 76-30-4.

During the year the society conducted one general and two committee meetings. The accounts of the society are maintained easily and correctly. The society has done good work during the year for which the members of the Executive deserve to be congratulated.

#### STATEMENT OF OBJECTS AND REASONS.

In the last few years a number of factories for banking, cleaning or boiling rice and ginning cotton have come into existence in certain municipal towns; for instance, Barwala and Gwalda. They are often located in converted dwelling houses in the most crowded portions of the towns. In the hours when they are busily working all night long. The noise, especially the explosion of the oil-engines, of numerous factories in close proximity, and the vibration set up by them, cause grave interruptions in the day time and render sleep difficult at night. His Highness the Nizam's Royal-Khans at Barwala was rendered almost useless to Mohammedan travellers by the action of an oil-engine immediately adjoining the sleeping rooms. The door of a Hindu sailing-house was observed to be in a constant condition of vibration owing to the proximity of another oil-engine. The dust, smoke and soot, especially when rice-bush and other waste products are used for fuel, gradually settle all the dwelling houses in the vicinity, and the food of children and the desks of school-boys have been observed to be covered with a layer of soot after the factories had been at work two or three hours. The smell of oil and of heated metal is also often offensive. The municipal authorities have no power under the existing law to stop the erection of factories in residential quarters, and perhaps none to control those which are erected. Section 182 of the District Municipalities Act, 1884, only empowers them to build on a proper level for the foundation, proper ventilation, drainage, latrine accommodation, and the like when growing a house (which can in no case be refused outright) to erect a factory or to convert a building into a factory. Section 188, clause (k), under which they may regulate industries "likely to be dangerous to human life or health or to property," has been in the past applied in some places, but in others has been held inapplicable; in such other places (e.g., in Vengara and Barwala) the District officers have been moved to use their influence to stop the erection of factories in residential quarters, and their legislative powers to close them, or at the least to limit upon the use of smoking apparatus and place in the chimneys to intercept dangerous particles of combustible matter. Experience has however shown that the economic motive which urges men to erect their factories in the business quarters of towns is too strong for official influence to have any lasting effect, and reluctance of magistrates to interfere under the provisions of the criminal codes with a flourishing industry now it has been established has prevented any serious measure being taken to put down the public nuisance which these factories and chimneys create. The result is that the qualities of life have already been greatly reduced in some municipal towns, and the health of the population has probably also been

affected. The mischief will go further if not dealt with at once. Factories must not be allowed in the new residential quarters which are being laid out by some municipalities, but at present there is no legal means to prevent their erection.

It is proposed to introduce next year a comprehensive bill to consolidate and amend the District Municipalities Act, but it is considered best not to postpone the grant to municipal authorities of power to control the erection and use of factories, representations having been received by Government that the situation is becoming more and more difficult.

#### NOTES ON CHANGES.

*New section 140-A.*—*Cf.* sections 120, Bombay City Municipal Act, 1908, sections 463, Calcutta Municipal Act, 1909, and the parallel sections in those Acts (Bombay Act, section 471, Calcutta Act, section 463).

*Experience in Burmah.* has shown that persons about to erect factories are not deterred from failing to give notice to the municipal authorities by the penalty (fine of Rs. 50) that may be imposed for breach of section 120 of the Madras District Municipalities Act.

*New section 140-B.*—This is a new provision dealing with factories which have become the subject of special complaint to certain municipalities in the Presidency. "Public nuisance" in clause (b) will, of course, have the same meaning as in section 145 of the Penal Code. [See section 3 (27) of the Madras Criminal Codes Act, 1904.]

*New section 140-C.*—Experience in working the Factories Act has shown the power to be necessary.
